Multi-Digit Multiplication: Partial Products & Ratio Tables

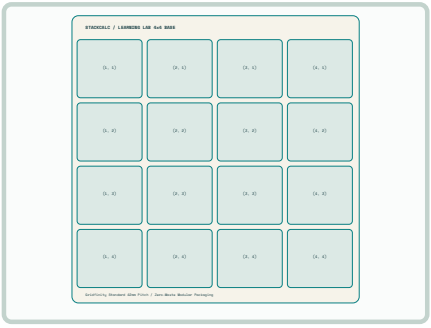
Tactile Concrete-Pictorial-Abstract (CPA) Station Guide • CCSS.MATH.4.NBT.B.5

Student Name: _____ Date: _____ **Model: SC-6** **Check Score: ___ / 4**

STUDENT SELF-CHECK RULE (NO CHEATING):
Build with blocks and solve on paper first! Use your SC-6 calculator ONLY to verify answers on the 4-line LCD screen.

STATION LAB TUTORIAL: BENCH SCHEMATIC & CPA PROGRESSION

1. 2D Bench Blueprint



Kit: Gridfinity Baseplate

2. Desk Setup (Concrete -> Pictorial)

Physical Bench Setup:
Model 4 × 23 on the desk as 4 rows of 20 and 4 rows of 3.

Sketch Model on Paper:
Draw an open array rectangle split into 20 and 3, height 4.

3. Step-by-Step LCD Stack Trace (SC-6)

MODE:	123	Base-10 Arithmetic	
1.	4	X: 4	Multiplier 4 into X
2.	ENTER	Y: 4 | X: 4	Stack lift
3.	20	Y: 4 | X: 20	Tens part (20) into
4.	×	X: 80	1st partial product:

EXPECTED LCD X: 92

1 **Calculate 4 × 32 using partial products: (4×30) + (4×2).**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-6

2 **Calculate 6 × 25 using partial products: (6×20) + (6×5).**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-6

3 **Calculate 7 × 43 using partial products: (7×40) + (7×3).**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-6

4 **A box holds 35 markers. How many in 6 boxes?**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-6

Station Diagnostic & Solution Key: Unit 1

Multi-Digit Multiplication: Partial Products & Ratio Tables • Manipulative Setup, Diagnostic Rubric & Verification Flow

MANIPULATIVE HARDWARE STATION INVENTORY & 3D PRINT PREPARATION

Station Kit: Gridfinity Baseplate & Stacking Blocks

CAD Blueprint: gridfinity_baseplate

Target Device: SC-6 Elementary

CAD / STL Source File:

Education/scad/lib/gridfinity.scad

Standard: Gridfinity 42mm Pitch / 0.6mm Inset Markings

Recommended Filaments:

Charcoal 4x4 Baseplate & Teal Cubes (PLA)

#	Math Problem Prompt	Expected Math Answer	Self-Check Keystrokes & RPN Stack
1	**Calculate 4 × 32 using partial products: (4×** Standard: CCSS.MATH.4.NBT.B.5	**128**	[4] [ENTER] [3][0] [×] [4] [ENTER] [2]
2	**Calculate 6 × 25 using partial products: (6×** Standard: CCSS.MATH.4.NBT.B.5	**150**	[6] [ENTER] [2][0] [×] [6] [ENTER] [5]
3	**Calculate 7 × 43 using partial products: (7×** Standard: CCSS.MATH.4.NBT.B.5	**301**	[7] [ENTER] [4][0] [×] [7] [ENTER] [3]
4	**A box holds 35 markers. How many in 6 boxes?** Standard: CCSS.MATH.4.NBT.B.5	**210 markers**	[6] [ENTER] [3][5] [×]

TEACHER DIAGNOSTIC GUIDE: COMMON MISCONCEPTIONS & REMEDIATION

Key Misconception to Target During Station Observation:

Ensure students multiply the tens place value (20), not just the digit 2.

How the Manipulatives & Calculator Foster Self-Correction:

Students solve with pencil and physical blocks first. When they self-check on the SC-6, any discrepancy between their written answer and the calculator's 4-line LCD immediately prompts them to re-inspect their physical bench model or regrouping, turning errors into productive struggle without teacher intervention.

Station Facilitation & Pacing Tip:

Keep 3D printed trays docked on standard Gridfinity baseplates to prevent loose parts on student desks. Encourage students to articulate their CPA steps: name the block representation (Concrete), point to their drawn tape/bond model (Pictorial), and verify register values (Abstract).

CLASSROOM SCORING & STATION MASTERY RUBRIC

Exemplary (18–20 pts):	Complete, accurate manipulative sketches; exact math answers; independently verified self-check on LCD stack.
Proficient (14–17 pts):	Correct math answers; minor sketch omissions; verified on calculator with minimal teacher prompting.
Developing (10–13 pts):	Understands problem concept but made computational slips; successfully self-corrected using calculator LCD.
Intervention (<10 pts):	Relied on calculator before solving on paper, or struggled with underlying physical manipulative models.
