2D Vector Decomposition & Resultants

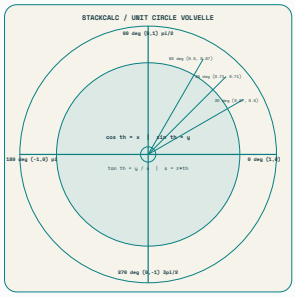
Tactile Concrete-Pictorial-Abstract (CPA) Station Guide • CCSS.MATH.HSN.VM.A.1

Student Name: _____ Date: _____ **Model: SC-32** **Check Score: ___ / 4**

STUDENT SELF-CHECK RULE (NO CHEATING):
Build with blocks and solve on paper first! Use your SC-32 calculator ONLY to verify answers on the 4-line LCD screen.

STATION LAB TUTORIAL: BENCH SCHEMATIC & CPA PROGRESSION

1. 2D Bench Blueprint



Kit: Unit Circle Volvelle

2. Desk Setup (Concrete -> Pictorial)

Physical Bench Setup:
Set volvelle vector arrow to magnitude 20 at 60°. Read horizontal (10) and vertical (17.32) projections.

Sketch Model on Paper:
Draw vector diagram on coordinate grid resolving into orthogonal components.

3. Verify with SC-32 (Abstract)

RPN Stack Register Flow:
Fx = 20 cos(60°) = 10; Fy = 20 sin(60°) = 17.3205. Accumulate components on stack.

Self-Check Keystroke Sequence:

`5` `0` `enter` `3` `0` `COS` `×`

Expected LCD: Fx = 43.3013 N, Fy = 25.0000 N

1 **Find Fx for F = 100 N at 45°.**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-32

2 **Find Fy for F = 100 N at 45°.**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-32

3 **Find magnitude of vector <3, 4>: [3] [x²] [4] [x²] [+] [√].**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-32

4 **Find angle for vector <1, 1>: [1] [ENTER] [1] [÷] [ATAN].**

Manipulative Model & Desk Sketch (Show your work):

Final Math Answer: _____

☐ Verified on SC-32

Station Diagnostic & Solution Key: Chapter 9

2D Vector Decomposition & Resultants • Manipulative Setup, Diagnostic Rubric & Verification Flow

MANIPULATIVE HARDWARE STATION INVENTORY & 3D PRINT PREPARATION

Station Kit: Unit Circle Trigonometry Volvelle

CAD Blueprint: unit_circle_volvelle

Target Device: SC-32 Scientific

CAD / STL Source File:

Hardware/models/stl/accessories/volvelle.stl

Standard: Gridfinity 42mm Pitch / 0.6mm Inset Markings

Recommended Filaments:

Dual Precision Rotary Dial in Dark Blue & White (PLA/PETG)

#	Math Problem Prompt	Expected Math Answer	Self-Check Keystrokes & RPN Stack
1	**Find Fx for F = 100 N at 45°.** Standard: CCSS.MATH.HSN.VM.A.1	70.7107 N	[100] [ENTER] [45] [COS] [×]
2	**Find Fy for F = 100 N at 45°.** Standard: CCSS.MATH.HSN.VM.A.1	70.7107 N	[100] [ENTER] [45] [SIN] [×]
3	**Find magnitude of vector <3, 4>: [3] [x²] [4** Standard: CCSS.MATH.HSN.VM.A.1	5.0000	[3] [x²] [4] [x²] [+] [√]
4	**Find angle for vector <1, 1>: [1] [ENTER] [1** Standard: CCSS.MATH.HSN.VM.A.1	45.0000°	[1] [ENTER] [1] [÷] [ATAN]

TEACHER DIAGNOSTIC GUIDE: COMMON MISCONCEPTIONS & REMEDIATION

Key Misconception to Target During Station Observation:

Remember horizontal is cosine (adj/hyp) and vertical is sine (opp/hyp).

How the Manipulatives & Calculator Foster Self-Correction:

Students solve with pencil and physical blocks first. When they self-check on the SC-32, any discrepancy between their written answer and the calculator's 4-line LCD immediately prompts them to re-inspect their physical bench model or regrouping, turning errors into productive struggle without teacher intervention.

Station Facilitation & Pacing Tip:

Keep 3D printed trays docked on standard Gridfinity baseplates to prevent loose parts on student desks. Encourage students to articulate their CPA steps: name the block representation (Concrete), point to their drawn tape/bond model (Pictorial), and verify register values (Abstract).

CLASSROOM SCORING & STATION MASTERY RUBRIC

Exemplary (18–20 pts):	Complete, accurate manipulative sketches; exact math answers; independently verified self-check on LCD stack.
Proficient (14–17 pts):	Correct math answers; minor sketch omissions; verified on calculator with minimal teacher prompting.
Developing (10–13 pts):	Understands problem concept but made computational slips; successfully self-corrected using calculator LCD.
Intervention (<10 pts):	Relied on calculator before solving on paper, or struggled with underlying physical manipulative models.
