Learn the Champion Way first—then build fluency across 180 progressive daily tests.

Taking timed tests without learning faster methods only makes slow habits permanent. Every section in Stack Speed & Fluency opens with a 1-Page Speed Lesson & Shortcut Playbook contrasting the Slow / Amateur Way against the Champion Speed Way, followed by 6 untimed guided warm-up drills and a 3-Stage Mastery Protocol (Untimed Accuracy → Count-Up Personal Best → Timed Sprint).

Designed for a full 36-week school year at home, in class, or on a competitive math/calculator team, each 7-page section provides 12 unique 20-problem practice tests with worked examples at the top of every test page—Tests A1–A3 (Level 1: Foundation), Tests B1–B3 (Level 2: Core Fluency), Tests C1–C3 (Level 3: Multi-Step Speed), and Tests D1–D3 (Level 4: Tournament Challenge)—totaling 3,690 non-repeating problems with online answer keys at stackcalc.io/curriculum/answers.

Inside the Full-Year Edition: 15 Speed Lessons & 90 Guided Warm-Ups • 180 Unique Progressive Tests (A1–D3, 3,600 Test Problems) • 90 Page-Top Worked Examples • 6 Sprint Drills & 180-Day Streak Grid • 128 Pages.
