PROGRESSIVE SPEED & FLUENCY WORKBOOK • 60 TESTS / 1,200 PROBLEMS

STACK SPEED & FLUENCY

60 Progressive Mathematical Speed & Fluency Practice Tests (Levels 1–4)

StackCalc

MATHEMATICS / SPEED & FLUENCY PRACTICE TESTS

Four progressive difficulty levels for every mathematical concept.

True mathematical fluency grows step by step—from foundational mental recall to multi-step structural speed. Every section in this book provides four distinct 20-problem practice tests arranged in increasing difficulty: Test A (Level 1: Foundation), Test B (Level 2: Core Fluency), Test C (Level 3: Multi-Step Speed), and Test D (Level 4: Advanced Challenge).

Designed for homeschooling families, classrooms, and math clubs, Stack Speed & Fluency delivers 60 compact 20-problem practice tests (1,200 problems total) across 12 concept sections and 3 cumulative reviews—complete with clean answer blanks, personal progress trackers, and full self-check answer keys.

Inside the Workbook: 15 Sections (Units 1–12 & Cumulative C1–C3) • 4 Progressive Tests per Section (Tests A–D) • 60 Practice Tests (1,200 problems) • Complete self-check answer keys.
