TEN-FRAMES & PLACE VALUE ARITHMETIC LAB

5-Anchor Subitizing, Regrouping & Base-10 Manipulatives

SERIES 1 • CARD 01 / 12 • DOMAIN: PLACE VALUE & 5-ANCHOR SUBITIZING

CARD 01 / 12 • BASE-10

MATHEMATICAL GUIDE

1. CONCEPT & GEOMETRIC PROOF

5-ANCHOR SUBITIZING & BRIDGING TO 10

Ten-frames visually organize numbers into 5-anchors:

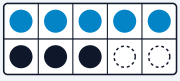

5-Anchor Formula: 5 + n • Ten's Comp: 10 - n

Seeing 8 as 5 on top and 3 below anchors addition,
turning counting into instant visual recognition!

CALIBRATED 14.00 MM SUBITIZING GRID

- Counter Diameter: 14.00 mm (2U) with two-tone face
- Stacking Datum: 1.85mm base plug & stacking socket
- Ten-Frame Grid: 2 × 5 array with 14.00 mm wells

5-ANCHOR SUBITIZING: 5 + 3 = 8 (BRIDGE 10)

INSTANT SUBITIZING

Top Row: 5 Blue (anchor)
Bottom: 3 Red (8 total)

2 Empty Slots:

10 - 8 = 2 Ten's Comp
Bridge: 8 + 5 = 13

2. KIT PARTS INVENTORY (56 PIECES)

COMPONENT	QTY	SPEC	COLOR
10-Frame Trays	2x	97.4×38.6mm	PLA Gray
Counter Blocks A	26x	19.0 mm Tile	PLA White
Counter Blocks B	26x	19.0 mm Tile	PLA Tan
Regrouping Cubes	2x	19.0 mm Cube	Muted Red
Twin Stage Lid	1x	Twin 10-Frame	PLA White
3x1 Storage Bin	1x	49.0 mm	PLA White

TOTAL: 52 Counters + 2 Carry Cubes + 2 Trays + Box + Lid = 56 Parts

SLANT 3D PRODUCTION PALETTE

- PLA White: Counter Set A, Storage Box Body & Stage Lid.
- PLA Tan: Counter Set B for second operand.
- PLA Gray: Dual 2x5 activity trays for neutral ground.
- PLA Matte Muted Red: Regrouping carry cubes (+1 / +10).

3. PACK-UP & SUPPORT

✓ 10-SECOND PACK-UP

Populate both 10-frames with 10 counters each and lay carry cubes into center trough. Empty wells instantly spot missing pieces. Twin stage lid snaps flush.

✓ NO LOST PIECE GUARANTEE

Classrooms lose pieces. Every single math component is permanently stocked for single replacements.

Order replacements anytime

✓ HANDS-ON TUTORIAL

Flip over for 5-step concrete lesson & live 3D Video QR!
Keep stored inside box lid!

FUNDAMENTAL THEOREM

Base-10 positional notation decomposes any integer into powers of 10 with digits 0 through 9.

Grades K–3 Subitizing & Place Value

GUIDING INQUIRY

How many empty spots are left in Frame A before you start moving counters from Frame B?

1 STEP 1: POPULATE 8 ON TEN-FRAME A

Place 8 blue counters in Ten-Frame A.
Fill the top row (5 blue) and bottom row (3 blue).
Instant Subitizing: 5 + 3 = 8 (zero counting needed!).
Notice: exactly 2 slots remain empty to

2 STEP 2: POPULATE 5 ON TEN-FRAME B

Place 5 red counters in Ten-Frame B (fills top row of 5).
We want to calculate 8 + 5 without counting by ones.
Frame A needs 2 counters to bridge to 10.

3–4 STEPS 3 & 4: BRIDGE TO 10 & REGROUP

3. BRIDGE TO 10: Move 2 red counters from B to A. Frame A is now 1 Ten (10)!

4. READ REMAINING ONES: Frame B has 3 red counters left. Total: 10 + 3 = 13!

Keystrokes: Ten-Frame Icon ([▤] & [PV]) 8 [ENTER] 2 [+] 5 [+] [▤] → 15.

5 CORE PRINCIPLE: ADDITION IS BRIDGING, NOT COUNTING

Counting on fingers by ones is slow and error-prone. The 10-frame proves that addition is decomposing numbers into friendly anchors: 8 + 5 = 8 + (2 + 3) = (8 + 2) + 3 = 10 + 3 = 13! Once students see the 2 empty spaces in the 8-frame, they instantly know to borrow 2 from the 5!

★ EXTENSION INVESTIGATION: BRIDGE TO 10: 7 + 6

Put 7 in Frame A (3 empty). Put 6 in Frame B. Move 3 to make a ten. How many are left in B? 10 + 3 = 13! (Scan QR for 3D animated solution!)

→ Assemble with physical blocks, then scan QR code for 3D animated solution.
